Lift Chairs: Comfort, Independence, and Support Right at Home

LIFT CHAIRS: COMFORT, INDEPENDENCE, AND SUPPORT RIGHT AT HOME

Choosing the right furniture for your home is crucial for optimum function, comfort, and relaxation. On the list of essential furniture pieces to complete your home set up, reclining chairs are a staple. To make maneuvering and relaxation even easier, you should be looking at lift recliners specifically. There are a lot of benefits a lift chair can offer you over a standard recliner that make the purchase worthwhile. For anyone who's experienced difficulty getting up from a standard chair, a lift chair can be life changing. These versatile, stylish chairs don't just look like regular recliners—they provide added support that can make daily life easier and more comfortable.

One of the standout benefits of a lift chair is its ability to aid mobility. With the push of a button, the chair smoothly lifts the user into a standing position or reclines for relaxation. This feature can be empowering for individuals who face mobility issues, giving them the confidence and

ability to get up and move around without needing assistance. Modern lift chairs come with easy-to-use remote controls, making it simple to adjust positions. Users can switch from sitting to reclining or standing with just a press of a button. Many models also come with additional features, such as built-in massage, heating, and lumbar support, all controlled from the same handheld remote for a truly personalized experience. Lift chairs are designed with health in mind, offering multiple positioning options that can reduce pressure on joints and improve circulation. Spending too much time in one position can lead to discomfort or even swelling in the legs, but the lift chair's recline options help elevate the feet and reduce these effects. For anyone who spends extended periods seated, a lift chair can be a real game-changer. At Main Street Medical Supply we have a wide selection of lift chairs with a variety of features. We are also extending our November special to the end of the year! Come in and buy a lift chair and you will get a FREE rollator too!

PRODUCT SPOTLIGHT

New at Main Street Medical Supply is the Pride Go Go® Carbon Scooter. Harnessing the power of its full carbon fiber frame, the Go Go® Carbon offers exceptional portability in a four-wheel scooter. It weighs just 35 pounds without its (lithium) battery, folds down in seconds for convenient transport and storage, and can be towed like luggage through airports and other environments. Come in and take it for a test drive today!

*Non-Medical Device¹
