### Choosing The Right Lift Chair For You

Lift chairs are a great solution for anyone with balance or mobility issues, but are helpful in a plethora of other uses as well. When shopping for your lift chair it is important to consider your seating functions. Seating functions are key in making the right selection that may address your particular medical conditions. From sleep apnea to reflux disease, lower extremity swelling, and more. There is a perfect chair for the job. Many lift chairs will offer additional luxury features including heat therapy, massage therapy, and even adjustable lumbar support! No matter the function, fabric choice matters. Cotton or blended fabric upholstery will provide soft, comfortable seating, however can be prone to wearing faster than a synthetic option. The synthetic fabric options in many chairs offer enhanced moisture resistance, increased durability and ease of care. Most of our chairs, offer the ability to fully customize the chair, selecting from a wide range of custom grades and colors of natural and synthetic fabrics. Also important is size. The wrong size chair may not ergonomically fit and lose some of it's healing benefits. Ranging from petite to extra-large, it's important to make sure to select the correct size for the user. Pay particular attention to the seat size and the leg rest length. Since most power lift chairs are used for extended period of time, it's important to pick the right size for you. Come in to the store today and we can help you pick the right lift chair, in the right size and fabric for you.

# Product Spotlights

New and restocked for January we have the Vive Ice Therapy Machine. The Vive Ice Therapy Machine offers targeted cold therapy to help you recover faster. Soothing cold therapy reduces pain, swelling, stiffness and inflammation due to surgery, injury, post-workouts, arthritis and more. The Vive Ice Therapy machine is quiet and compact. It holds 6L and includes a carry handle for easy portability. You can easily adjust the timer settings and variable flow rates for complete customization. The versatile therapy pad is uniquely designed to contour to the body for targeted relief with three sizes of non-slip straps for optimal positioning. You can secure the therapy pad on the shoulder, arm, back, hip, knee, calf or ankle, with one of the three adjustable straps. The Vive Ice Therapy Machine has extra-long 5-foot tubing, insulated to maintain the water temperature, and secures to the unit with leak-proof snap clips. Additional Therapy pads are also available for purchase separately. Main Street Medical Supply is selling the new Vive Ice Therapy Machine for \$300, or you can rent it for only \$65/week.

Back in stock this month is the new lightweight Jazzy® Carbon power wheelchair. Jazzy® Carbon Power Wheelchair is your greatest travel companion. Jazzy® Carbon uses ultralight but exceptionally strong carbon fiber technology for its frame and a lightweight, reliable lithium-ion battery. Weighing in at a stunning 43.6 pounds, Jazzy® Carbon still provides top speeds up to 3.7 mph with a weight capacity of 300 pounds. Come in and try it out, we would be happy to demonstrate all of it's wonderful and convenient features. The Jazzy® Carbon is \$2750.00.

**Jazzy<sup>®</sup> carbon**
